

RESPONSIBLE ALUMINUM

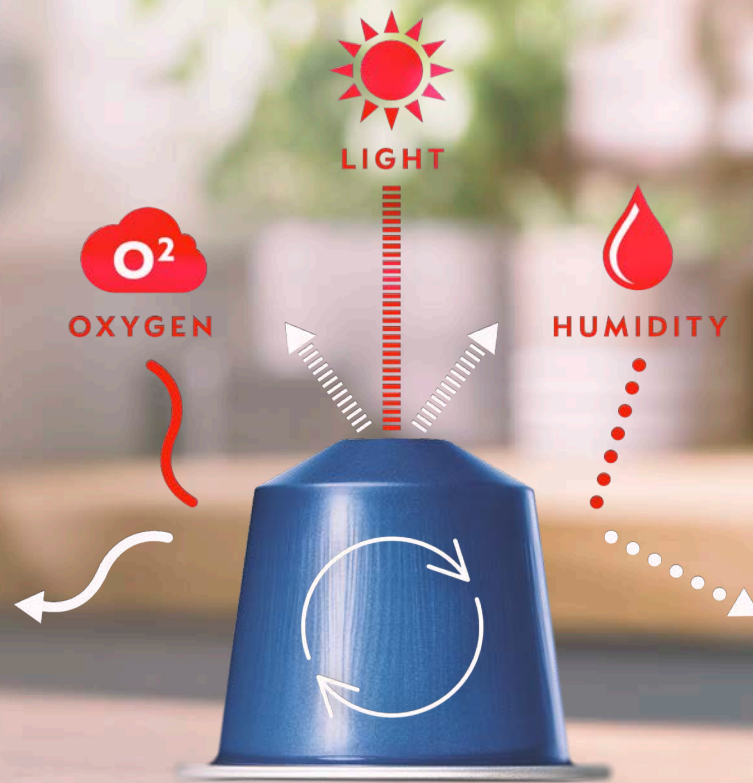

WRF – OCTOBER 2019

WHY ALUMINIUM?

Aluminium is the best material to protect the flavours and aromas of coffee against

...and is infinitely recyclable

ASI: DRIVING SYSTEMIC CHANGE

asi Aluminium Stewardship Initiative

Protecting indigenous peoples' rights

Respecting biodiversity

**OUR 2020 COMMITMENT:
TO SOURCE
100% ASI-
CERTIFIED
ALUMINIUM**

Reducing waste

Managing water

Minimising environmental impact

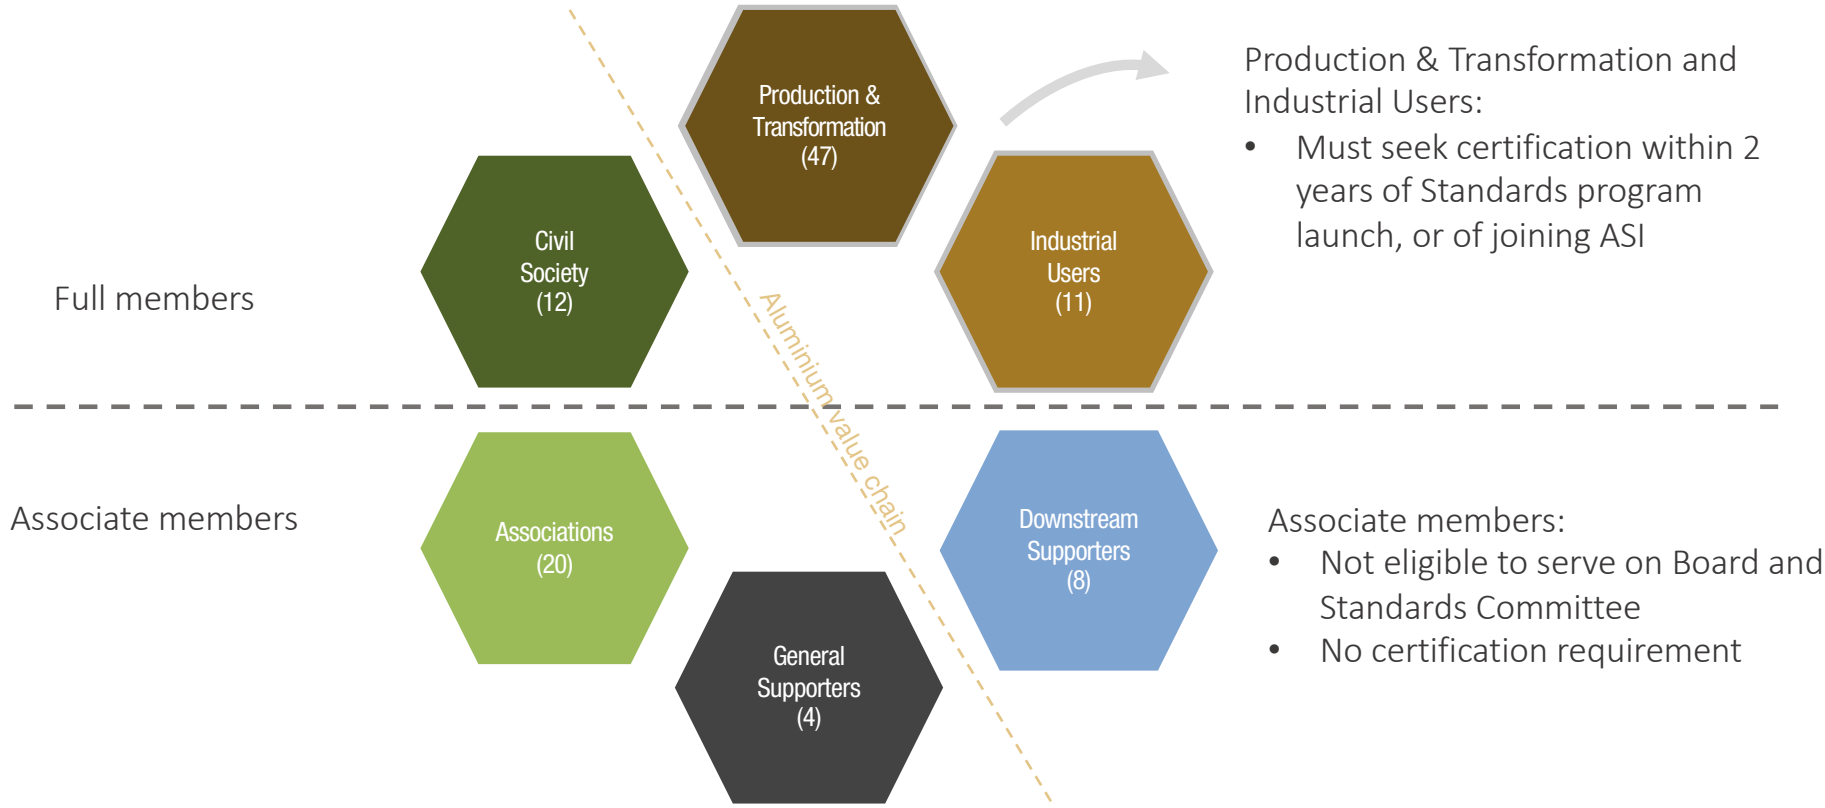

Reducing greenhouse gases

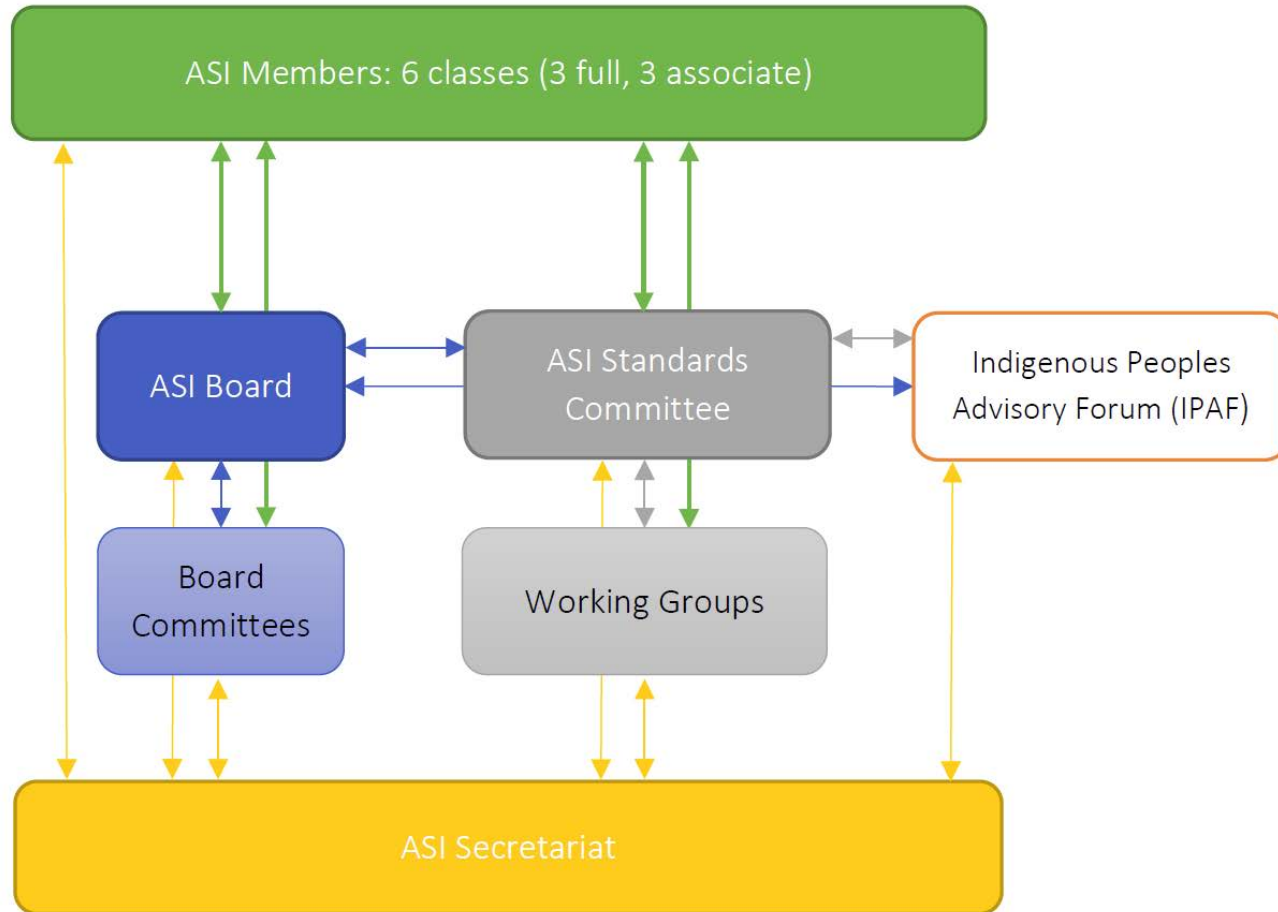

ASI – success factors

- Proactive rather than reactive
- Multi-stakeholder from inception
- Sufficient investment
- Early focus on governance model to set foundation
- Rigorous approach to program development
- Whole of supply chain approach
- Tailored to risks/materiality for aluminium
- Focus on innovation, including through digital investment

ASI Membership – 6 classes (data: October 2019)

ASI governance – working in partnership

- Membership-based
- Members elected annually to Board and Standards Committee on rotating 2-year terms
- Working Groups open to all members
